

## Specifications:

Coating	UV protected, finish 20
Standard colour	Natural
Special colours	On enquiry

## Dimensions

Standard width	500 mm
Length	1200 - 6000 mm, up to 15.000 mm on enquiry
Profil height	40 mm
Weight	4.1 kg/m, 8.2 kg/m <sup>2</sup>
Tolerances	Fiberline Standard

## Properties

Fire resistance	B-s3, d0 (EN 13 501) B1 (DIN 4102 and ÖNORM 3800) Class 0 (BS 476)
Longitudinal expansion	0.7 mm/m
Horizontal expansion	2 mm/m
Service temperature	- 20 to + 80 Celsius

## Patina

Lay Light is a fibreglass product coated with translucent UV-lacquer, which must be expected to change over time. This patina has no effect on the construction or durability of the product.

## Mounting

The facade panel can be mounted both horizontally and vertically and used as a ventilated building envelope.
